

Science To Go!

Discovery Cube Los Angeles has teamed up with LA Sanitation to bring Environmental Science To Go programs to:

Sylmar Branch Library
14561 Polk St.
(818) 367-6102

| DATE | TIME | DEMONSTRATION | DESCRIPTION |
|------|------------|---------------------------------|--|
| 1/24 | 4 - 5 p.m. | Illegal Dumping 1 | Learn about our watershed, how pollutants our waterways are, and how LA San tests and cleans our water by creating and testing their watershed. |
| 2/28 | 4 - 5 p.m. | Illegal Dumping 2 | Learn about the effects of pollutants in our ecosystems, biomagnification, and plastics in our ocean. |
| 3/21 | 4 - 5 p.m. | Web of Life | Learn about food chains and webs by playing an interactive game that will allow you to create your own food web with animals from their local ecosystem. |
| 4/18 | 4 - 5 p.m. | Improve Your Ecosystem | Learn about native plants and animals by planting and taking home your own native plant seeds in a biodegradable pot to encourage you to create your biodiversity gardens. |
| 5/16 | 4 - 5 p.m. | Recycling Water | Learn about LA San's process to treat and recycle our wastewater by watching a video and playing the "Water Treatment System" game. |
| 6/20 | 4 - 5 p.m. | Stop the Clog and Fight the Fog | What we pour down drains can negatively affect our watershed and ecosystem. By creating your water lava lamp experiment, you learn more about these pollutants and buoyancy. |

For **ADA accommodations**, please call (213) 228-7430 at least 72 hours prior to the event.
